

Kindergarten, Phonics

Students enjoy the varied activities as they learn and review vowel and consonant sounds, blends, one and two-vowel words, words with special sounds, and sentence comprehension.

Kindergarten, Reading

The stories and word pages are correlated with the phonics sounds that are presented in class, beginning with one-vowel words and then progressing to two-vowel words. Kindergartners are thrilled with how rapidly they are able to move from one reader to the next. Students will gain a firm foundation in reading and develop a love for books that will last a lifetime

Kindergarten, Language Arts

A full-color set of visual illustrations, the Language Enrichment Visuals, provides an interesting way to teach children the concept of opposites and the difference between positions such as over, under, in, and out. These visuals will help to develop skills in picture interpretation and vocabulary development.

Kindergarten, Cursive Writing

Students learn to write the letters as they learn what sound the letters say. Teachers appreciate the sample letters that show exactly how each letter is to be written. The “houses” help students remember where each letter “lives.” Review is included along with new instruction. Students will write letters, blends, words, and even sentences.

Kindergarten, Numbers

Students learn skills that reinforce number concepts and formation through 100, addition and subtraction combinations, number sequences, number words, telling time, and working with money. Some pages are designed to be worked together as a class while others are designed as independent work.

Kindergarten, Bible

In K5 Bible, children will review many stories that were taught in Preschool and K4 Bible, and this year they will hear additional stories. Students will learn stories about God's creation of the world and about the life of Christ.

Kindergarten, Social Studies

Social Studies K5 introduces kindergartners to community helpers, beginnings of American history, interesting features of countries around the world, and simple geography. Children will enjoy coloring, drawing, and completing other fun activities.
